Bespoke Tailoring

A uniform is more than a piece of clothing. It is a sense of belonging, bringing people together and harmonising teams.

If you are looking for a completely bespoke look, we understand the dynamics of your brief from the fabric, raw materials, design, sampling, manufacturing, environmental impacts and quality assurance through to the necessity of timely logistics.

We like to think we provide an intelligent solution to textile sourcing. We are pro-active and will regularly provide developments in the form of fabrics and garments for your review.

We don't use agencies to manufacture our tailoring. We don't use factories that we haven't meticulously checked. We know who makes our clothing and we also expect the same from the partners we work with from the fabric mills to the button suppliers.

Our supply chain is industry leading in terms of compliance, sustainability and welfare so you can feel assured that we only work to the highest practices.
